

KYCOM
Strategic Plan
2022

Preamble for the KYCOM Strategic Plan

KYCOM Strategic Vision

At the University of Pikeville -

Goal 3- Because we believe biomedical and clinical research are essential components in the ongoing development of the UPIKE student experience, KYCOM will enhance the research opportunities available to students by working to increase funding from both internal and external sources, deepening research cooperation with our existing clinical partners, and fostering a culture of research entrepreneurship amongst the faculty, staff, and students.

To support this goal, KYCOM will:

1. Work with the University to assist faculty in the development of grant proposals.
2. Analyze faculty workload and develop policies relevant to release time for research.
3. Seek external partnerships for the development of research facilities.
- 4.
